#### METAMORPHOSIS

The transformation of crystal into a stunning lighted jewel.

BOMMA Glassworks and Rückl jointly introduce Metamorphosis, a new collection of crystal lighting by Rony Plesl. This collection combines the talents of these sister glassmaking brands – the breathtaking art of hand-cut crystal from Rückl, with exceptional technical solutions and the principle of light constellations typical for BOMMA.

Metamorphosis is a transformation from one form into another. Metamorphosis as the transformation of crystal into a stunning lighted jewel in any interior, creates a variable jewel that enables your own compositions. These are flawlessly presented in both craftsmanship and technical execution.

The delicate geometric cut of the Metamorphosis Collection on hand-blown crystal comes alive with its internal light source, highlighting amber, crystal or smoke colors. Just as stars from far-away in the sky, these seemingly small lighting objects fascinate us individually and become even stronger in groups.

### Handmade glass attributes

All Bomma products are hand-made from mouth-blown lead-free crystal. Therefore any small bubbles and irregularities in the glass are both a proof and a characteristic feature of this traditional craft.

The Metamorphosis Collection is produced in three colors, simply referred to as amber, smoke and clear. The clear version is made from pure crystal glass, while cigar and amber are produced from solid-color crystal. Each piece is original, thanks to the hand-cutting process. The clear and amber versions are cut using a diamond pattern, cigar is decorated with a curved geometric design. Being hand-made, the individual products can slightly differ in tone, color intensity or cut.

### LIGHTING DESCRIPTION
