

Herit

Uniting the eras
of Danish design

Tradition and renewal

Danish design traditions have left a clear mark on Simon Legald's chair series, Herit, which is short for heritage. The series reflects his love of classic Danish furniture craftsmanship and rose from a desire to design a versatile and strong chair that unites the different eras of Danish design. A chair in which oak and polypropylene merge in tactful synergy to create a hard-wearing, maintenance-friendly and accessible design made for modern life.

Product Facts

Description

The simple and honest style that characterizes Danish furniture history stands as a clear frame of reference for the Herit series. However, Herit is just as much a design that looks forward. Innovative production methods, new material compositions and timeless silhouettes give life to a chair that stands tall on its own.

Material

Shell: Polypropylene, PU foam with upholstery
Legs: Lacquered oak / Painted and lacquered oak

Construction

The polypropylene parts are molded with a core of foam. This innovative technique makes it possible to create thickness in the needed areas in order to obtain the best seating comfort and construct the sweeping lines of the design. The legs are made of solid wood. Herit comes assembled. ►
