

MAGIA

Michele Groppi / 2023

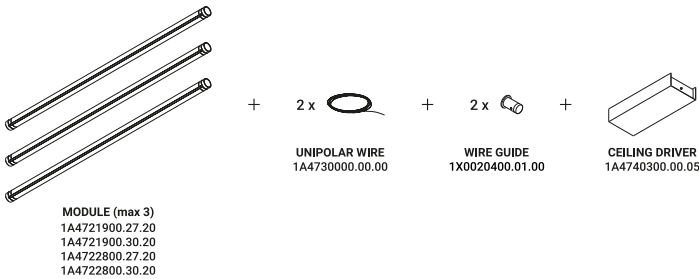

Light and transparency are the true stars of this project. We have always liked to think heretically, evoking mystery, magic and seduction. Magia is a modular suspension lighting system for indirect light that can be adapted to suit different heights of the rooms. In this case, the lens is not used to focus, but to modify the vision and perception of the object. The effect of the convex lens conceals the part of the light beam and produces the lightest effect of suspension and inconsistency. Luminaire designed also to be powered by ENDLESS conductive tape. **Archiproducts Design Award 2023**

La luce e la trasparenza sono le vere protagoniste di questo progetto. Da sempre ci piace pensare in modo eretico, evocando mistero, magia e seduzione. Magia è un sistema d'illuminazione a luce indiretta e a sospensione, componibile e adattabile a seconda delle diverse altezze degli ambienti. In questo caso, la lente non è usata per focalizzare, ma per modificare la visione e la percezione dell'oggetto. L'effetto della lente convessa permette di celare la parte di emissione della luce e produrre un leggerissimo effetto di sospensione e inconsistenza. Apparecchio illuminante alimentabile anche con il tape conduttivo ENDLESS. **Archiproducts Design Award 2023**
