

°multip

Multip is extremely versatile in terms of technology and design. Different modules allow you to combine light, audio and motion detection within the same product and look.

All modules can be installed alone, or combined with others offering the freedom to form a unique combination, as shown on the image below.

Design by Eden Design

audio
light
motion sensor

°multip Nero Marquina

Handmade

Each product is handmade in Belgium with the greatest precision.

Light & durable

The world's thinnest stone created from a raw piece of real durable marble stone sourced from Verona, Italy.

Unique & Timeless

Each Nero Marquina marble plate is unique and created by nature over 100 million years ago. Marble is known for its timeless and luxurious look offering you an exclusive product.

Modular

Easy connection system for multiple modules such as light, audio and motion.

Light module

directable LED spot with different options of light beam and colour.

Antiglare design

results in an UGR below 19 offering a good visual comfort.

Different finishes with premium materials

over 100 different combinations to match your interior.

Speaker module

can be connected to the amplifier of your desired AV system, for example SONOS, popular all over the world.

Motion detection

KNX or DALI control to integrate in your smart home system.
